What is the application process

Apply

You must apply online for a Child Student visa.

Check which [documents you'll need to apply](#).

Apply outside the UK

As part of your application, you'll need to prove your identity. How you do this depends on where you're from and what type of passport you have.

You'll either:

- have your fingerprints and photograph taken at a [visa application centre](#)
- use the 'UK Immigration: ID Check' app to scan your identity document (you'll also create or sign into your UK Visas and Immigration account)

You'll be told what you need to do when you apply.

Once you've started your application, you can save your form and complete it later.

This notice sets out all of the conditions of your permission so please read it carefully.

Your conditions

The following are all the conditions of your permission to enter and stay in the UK as a Child Student.

Sharing information about your permission to stay in the UK (your immigration status)

You can view and prove your immigration status online, via the 'view and prove your immigration status' service – https://www.gov.uk/view-prove-immigration-status. This online service provides a secure record and proof of your immigration status which is held digitally by the Home Office and which is available to you at all times. This service is made available to you instead of a Biometric Residence Permit.

Employers, landlords or other organisation may need to check your immigration status to see if you are allowed to work, rent property or access services. The online view and prove service can be used to share your immigration status information

- Not sending out decision email – another way to check is to try to log into: https://www.gov.uk/view-prove-immigration-status

    - You will need your child's passport and/or date of birth

    - If you are able to log into the above link, it means the visa was approved and you will be able to generate a share code
